Dear Sylvia,

Thanks for the note on Joesten. I'd heard reports of this work. Peter Kihss told me it was fantasy. I, of course, know nothing of it of my own knowledge. I was also told yesterday of a radio report the day before that he had been arrested in Switzerland and had charged that the FBI and CIA were responsible.

Odd about ehe unending violation of the statistics. Now Bowers. Why not start a World Serious pool on who is next?

There has recently been sign of Big but not Brotherly interest of a possibly quite serious nature which I cannot yet really evaluate.

Willis wants only $50.00 for his rights. When I sent him a check for a single set of slides and some prints he sent me two sets of slides, no prints, and no refund or offer of refund, and says no prints have any legal reight to exist or be used.

Sincerely,
